NORME DA OSSERVARE PER LA CONSULTAZIONE E L' ORDINAZIONE DEI PEZZI DI RICAMBIO

1. Ogni distinta ricambi, oltre al riferimento numerico relativo all' illustrazione, al codice del pezzo ed alla quantità, dispone di uno spazio in cui sono evidenziate le versioni della vettura.
2. La validità di un determinato pezzo di ricambio è caratterizzata da un segno (■) inserito nella colonna relativa ad una particolare versione e posto in corrispondenza del riferimento numerico del pezzo sopracitato.

Qualora non risulti presente nessun segno, su di uno stesso allineamento, significa che il pezzo in questione è comune a tutte le versioni.

3. Per l' ordinazione delle parti di ricambio citare sempre:

- il numero di codice
- la denominazione
- la quantità richiesta
- specificare inoltre, quando necessario, i numeri di matricola del motore e del telaio della vettura da riparare.

4. Esplicazione delle abbreviazioni usate:

DX = Destro
M = Metri
SX = Sinistro
L = Lunghezza
SN = Secondo necessità
MM = Millimetri
GR = Grammi

RULES FOR CONSULTING AND ORDERING SPARE PARTS

1. Each spare parts list, besides the number corresponding to the drawing, the price code and the quantity, contains a column with the automobile versions.
2. The validity of a given spare part is highlighted by a mark (■) located in the column of the automobile version and corresponding to the number reference of the part.

When no mark is present on a line it means that the corresponding spare part is common to all versions.

3. To order the spare parts, always specify:

- the code number
- the name
- the required quantity
- then, if necessary, specify the motor and frame serial number of the automobile to be repaired.

4. Explanation of the used abbreviations:

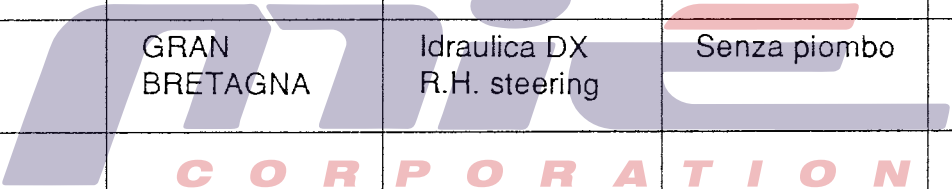

RH = Right Hand
M = Meters
LH = Left Hand
L = Length
SN = As Request
MM = Millimeters
GR = Gram
